

## State President Speaks.....

Dear Colleagues,

The activities of 1998 will be mainly focussed on the following points:

1. To reduce the overload of the veterinarians which is increased considerably during the last couple of years due to the drastic change in the set up of planning in the State. This will be done by fighting for more technical and clerical posts.
2. To improve the working conditions of the veterinarians, by improving the facilities of the institutions.
3. To improve the image of the veterinarians among the public.

These targets can be achieved if we all join hands together.

Help us to serve the Association and the Profession better;

by giving the subscription on time

by actively participating in the deliberations and discussions and

by using your contacts and rapport for the betterment of the Profession.

Regards

Sd/-

Dr George Varghese, President.

## Treasurer's Corner

G. Jayachandra Kamath

There will be some changes in the allocation of the funds raised by our Association by way of subscriptions. The newly constituted Taluk committees as well as District Committees will retain a portion of the subscription. The state committee has to meet the entire expenses of our activities. Veterinarian's Diary and JIVA with the central share. All the District units are requested to speed up collection, Palakkad District Unit is to be congratulated for being the first unit to collect 100% subscription during the first quarter of this year itself.
